Bleeding Disorders Association of South Carolina

A Chapter of the National Hemophilia Foundation, A Member Organization of Hemophilia Federation of America, and a member of Together SC Non-Profits.

You can help us change lives as we reach for a cure, one day at a time!

Par for the Clot is so much more than just a great day of golf. It is a deeply-appreciated show of community support to my family and others like us. It says that we are not alone as we work to treat our son's Hemophilia B. The financial contributions from this event provide opportunities for boys such as our son to go to camp, participate in the Blood Brothers program, and attend educational events. For older kids and members, they have the opportunity to receive scholarships, attend the Statewide Annual Meeting & HELLO Conference and educational retreats. The tournament allows us to advocate to our state and national leaders for continued support of the treatment of bleeding disorders, ensure the safety of the nation's blood supply, and work to keep insurance and drugs affordable. It brings together generations of the bleeding disorders community in an activity that everyone can participate. The Par for the Clot is also a great day on the golf course! ~ Brian Burton

Our Mission...

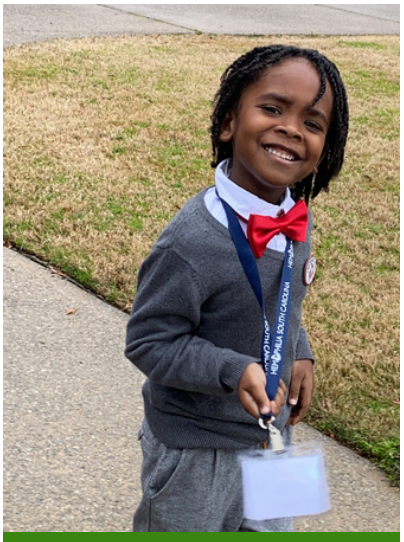

To be recognized as a leading organization, providing valued services; as ambassadors of public outreach to enlighten and foster an understanding of what matters most to those affected by hemophilia and bleeding disorders; and to be our community's first choice in partnership to achieve their highest potential through empowerment, connection to their community, and being part of the solutions that affect them the most, UNTIL a cure is achieved.

With your support, he will be able to live in a world free of Bleeding Disorders.

Despite COVID 19, we never strayed from our mission of promoting awareness, providing education, and supporting the Bleeding Disorder community. We used digital tools to reach new audiences, provided members with iPads so they could have the latest research and education at their fingertips, and were able to fulfill 100% of the financial assistance requests that were summited in 2020. None of this would have been possible with out your support.

Even our youngest members learn to advocate for themselves, be it in school, or at the State House.

Our educational retreats give members the opportunity to share their experiences and stories about living with a Bleeding Disorder.

About US

Tax ID # 23-7400632

Bleeding Disorders Association of South Carolina (BDASC) is a 501(c) 3 non-profit charitable organization which serves over 900 individuals, including 385 families in South Carolina, who are diagnosed with all types of rare genetic bleeding disorders. There are an estimated 7,000 identified rare disorders, affecting 1 in every 10 Americans. More than three million Americans have bleeding disorders— such as Hemophilia, Von Willebrand Disease, and rare factor disorders— that: prevent the blood from clotting normally; can result in extended bleeding after injury, surgery or trauma; can cause internal bleeding which leads to debilitating pain and damage to joints and muscles; and can be fatal if not treated effectively. Currently, there is no cure. BDASC works closely in collaboration with the treatment centers and their staff that care for our community members. As South Carolina's leading resource for adults, children, and families affected by bleeding disorders, BDASC maintains a close relationship with our community. We provide our members the opportunity to network with other families experiencing the same situations, seeking guidance and emotional support, for an often anxiety-ridden and frightening diagnosis. We support our families from the initial diagnosis throughout their lifetime and we are a tight-knit community family. Our greatest gift we can provide to our members is helping them know they will never be alone in their bleeding disorders journey.

The Impact of a Diagnosis

Imagine receiving news about your health or the health of a loved one that will impact you for the rest of your life. When a family or individual learns that a loved one has a rare bleeding disorder, it is heartbreaking. The picture they have painted for their family's future, suddenly changes. Their whole world is turned upside down. Your career, hobbies, where you live, family planning, and many other life decisions are now all affected. Your doctor can prescribe a treatment regimen, but where do you turn for help and support in between office visits? Who has the most relevant experience or practical knowledge to help you navigate life with a rare and life threating chronic disorder? It is only with the work of organizations that serve individuals with bleeding disorders like Bleeding Disorders Association of South Carolina, that families and individuals thrive, despite the often-difficult situations they must sometimes endure.

The Need for Your Support

Being part of a community that shares experiential knowledge often means the difference between effectively managing a chronic disorder like Hemophilia or Von Willebrand Disease, or being debilitated by it. Patient education, public awareness, support and advocacy for those affected are the principles at the core of our organization. We are Bleeding Disorders Association of South Carolina and we would love to have your support!

The bleeding disorders community is comprised of dedicated organizations, chapters, individuals, and volunteers. Regardless if you are new to the community and Bleeding Disorders Association of South Carolina, or someone who has been a part of it for years -- your support is crucial as we improve support for families with bleeding disorders. It is because of you, individuals and the companies that support our mission, that we can provide a wealth of support. Dedicated to assisting in the quality of life for those affected by bleeding disorders, we provide educational and support service programs; family, teen and children's camps support, financial assistance and compassionate care, college scholarships, advocacy awareness training and initiatives, local and national educational events and symposiums, support groups, referral services, and research support for advancement in treatment innovation and one day a cure. With your support, you stand with us, and give hope to our community. Hemophilia of South Carolina will be stronger because of YOU!

Changing lives as we reach for a cure * one day at a time!

Sponsorship Opportunities:

Par for The Clot, 7th Annual Charity Golf Tournament Fundraiser and Awareness Campaign Benefiting Bleeding Disorders Association of South Carolina (BDASC)

Our Turkey Trot walk is an opportunity for the community to come together and raise awareness of Bleeding Disorders to the public at large.

Teen Camp 2020 was different and full of firsts, but our kids still had a good time connecting and learning about living with Bleeding Disorders.
